MIRADAS PUESTAS EN EL FUTURO

LOOKING AHEAD

Azulev es una empresa de fabricación y comercialización de cerámica. Con más de 80 años de experiencia en el sector cerámico español. Desde sus inicios ha ido evolucionando de la cerámica tradicional a productos de gran formato e innovadores.

Azulev es un productor cerámico de materiales de revestimiento y porcelánico tanto en 10mm, 7mm y 6mm. Desde la adquisición en 2020 por parte de la empresa Rocersa también se refuerza la gama con productos de 20mm para espacios urbanos, públicos o exteriores, donde hay grandes cambios de temperatura donde la resistencia mecánica es un requisito técnico.

Esa inquietud por la innovación ha llevado a la empresa al desarrollo de la gama Slimrect, producto y proceso absolutamente enfocados al cuidado del entorno y dejar un mundo mejor para las generaciones futuras.

La protección del medio ambiente, la creación de productos sostenibles, el asesoramiento personalizado y el diseño vanguardista han permitido que esta empresa se consolide en el sector cerámico.

Azulev is a ceramics manufacturing and marketing company. With more than 80 years of experience in the Spanish ceramic sector. Since its beginnings it has evolved from traditional ceramics to large format and innovative products.

Azulev is a ceramic producer of cladding materials and porcelain tiles in 10mm, 7mm and 6mm. Since the acquisition in 2020 by the company Rocersa, the range has also been reinforced with 20mm products for urban, public or outdoor spaces, where there are large temperature changes and where mechanical resistance is a technical requirement.

This concern for innovation has led the company to develop the Slimrect range, a product and process that is absolutely focused on caring for the environment and leaving a better world for future generations.

The protection of the environment, the creation of sustainable products, personalised advice and avant-garde design have allowed this company to consolidate its position in the ceramics sector.

COMPROMETIDOS CON EL MEDIOAMBIENTE

COMMITTED TO THE ENVIRONMENT

COMPROMETIDOS CON EL MEDIO AMBIENTE

En AZULEV apostamos por la necesidad de incorporar a nuestras actividades un compromiso permanente de respeto y protección del medioambiente, dirigiendo el esfuerzo a conseguir que nuestros procesos y productos sean cada día más sostenibles. Nos comprometemos con el cumplimiento de la legislación medioambiental aplicable a los ámbitos europeo, nacional, autonómico, regional y local.

Nuestro compromiso permanente nos lleva a identificar y evaluar los impactos medioambientales derivados de nuestras actividades y productos, con el objeto de reducirlos adoptando una planificación y unos procedimientos de gestión medioambiental sostenibles.

- Reciclamos para minimizar el consumo de recursos naturales
- Somos vertido cero
- Alta eficiencia energética
- Nuestros Proyectos de Sostenibilidad
- Certificaciones, Ecoetiquetas y Cumplimiento de Requisitos Legales
- Proyecto Futuro

COMMITTED TO THE ENVIRONMENT

At AZULEV we are committed to the need to incorporate into our activities a permanent commitment to respect and protect the environment, directing our efforts towards making our processes and products more sustainable every day. We are committed to complying with the environmental legislation applicable at European, national, autonomous, regional and local levels.

Our permanent commitment leads us to identify and evaluate the environmental impacts derived from our activities and products, with the aim of reducing them by adopting sustainable environmental management planning and procedures.

- Recycling to minimise the consumption of natural resources
- We Are Zero Landfill
- High Energy Efficiency
- Our Sustainability Projects
- Certifications, Ecolabels and Compliance with Legal Requirements
- Future Project

ESPECIFICACIONES TÉCNICAS

TECHNICAL INFORMATION

NUESTRA HUELLA MÁS ECOLÓGICA

OUR GREENER FOOTPRINT

Fácil manipulación gracias a su bajo espesor.

It allows to place it on other materials without having to remove the debris.

Fácil de cortar, perforar y manejar gracias a su peso y bajo espesor.

Easy to cut, punch and handle thanks to its weight and low thickness.

Permite colocar sobre otros materiales sin necesidad de desescombrar.

It allows to place it on other materials without having to remove the debris.

Reducción del coste de transporte. En el mismo viaje se puede transportar más mercancía.

Reduction in transport costs. More goods can be transported in the same trip.

Reduce el espacio de almacenaje. En las mismas cajas caben más metros cuadrados, más piezas y con menor peso.

Reduces storage space. The same boxes can hold more square meters, more pieces and with less weight.

Reduce el tiempo de ejecución de la obra al no tener que retirar materiales viejos para colocar los nuevos.

Reduction of the time of execution of the work by not having to remove old materials to place the new ones.

SLIMRECT

SLIMRECT da nombre a las colecciones de producto desarrolladas en espesor fino tanto en porcelánico como en revestimiento. La propuesta de Azulev es un producto cuyos puntos de fuerza son la versatilidad, la facilidad de empleo y fabricados de acuerdo con las normas medioambientales más estrictas, siguiendo nuestros preceptos ECOLIFESTYLE. Azulev se centra en aspectos clave como la innovación tecnológica.

Los productos y actividades de producción del Grupo cumplen las normas de sostenibilidad cada vez más estrictas, de acuerdo con los principios de la construcción ecológica. Para sus principales colecciones, la empresa ha tomado medidas para aplicar las normas internacionales desde la fase de diseño. La calidad de vida a través de un fuerte enfoque en el medioambiente.

En Azulev apostamos por la necesidad de incorporar a nuestras actividades un compromiso permanente de respeto y protección del medioambiente, dirigiendo el esfuerzo a conseguir que nuestros procesos y productos sean cada día más sostenibles. Nos comprometemos con el cumplimiento de la legislación medioambiental aplicable a los ámbitos europeo, nacional, autonómico, regional y local.

Nuestro compromiso permanente nos lleva a identificar y evaluar los impactos medioambientales derivados de nuestras actividades y productos, con el objeto de reducirlos adoptando una planificación y unos procedimientos de gestión medioambiental sostenibles.

SLIMRECT is the name of the product collections developed in thin thickness both in porcelain tiles and wall tiles. Azulev's proposal is a product whose strong points are versatility, ease of use and manufactured in accordance with the strictest environmental standards, following our ECOLIFESTYLE precepts. Azulev focuses on key aspects such as technological innovation.

The Group's products and production activities meet increasingly stringent sustainability standards, in line with green building principles. For its main collections, the company has taken steps to implement international standards right from the design phase. Quality of life through a strong focus on the environment.

At Azulev, we are committed to the need to incorporate into our activities a permanent commitment to respect and protect the environment, directing our efforts towards making our processes and products more and more sustainable. We are committed to complying with the environmental legislation applicable at European, national, regional, regional and local levels.

Our permanent commitment leads us to identify and evaluate the environmental impacts of our activities and products, with the aim of reducing them by adopting sustainable environmental management planning and procedures.

SOLUCIÓN PARA EL EXTERIOR

OUTDOOR SOLUTION

En Azulev estamos en contacto directo con las últimas novedades en arquitectura, sistemas de construcción e interiorismo. Gracias a ello, seguimos apostando por soluciones innovadoras y fiables como OUTSIDE20, una gama de producto que ofrece las prestaciones técnicas adecuadas para pavimentos de exterior. Son los porcelánicos perfectos para proyectar ambientes exteriores. Con las piezas antideslizantes de espesor 20mm es posible dar forma a accesos y caminos en zonas de piscina, slares como en hoteles y zonas residenciales.

El concepto de In&Out es tendencia, está estrechamente ligado a los proyectos contract, la arquitectura y el nuevo estilo de vida, donde se requiere de diferentes características técnicas para interior que para exterior, pero buscando una uniformidad y una continuidad. Azulev cuenta con una amplia gama de acabados: acabados de interior naturales y pulidos, acabados antideslizantes de exterior o para zonas húmedas en espesor 10 mm y 20 mm.

En Azulev estamos en contacto directo con las últimas novedades en arquitectura, sistemas de construcción e interiorismo. Gracias a ello, seguimos apostando por soluciones innovadoras y fiables como OUTSIDE20, una gama de producto que ofrece las prestaciones técnicas adecuadas para pavimentos de exterior. Son los porcelánicos perfectos para proyectar ambientes exteriores. Con las piezas antideslizantes de espesor 20mm es posible dar forma a accesos y caminos en zonas de piscina, slares como en hoteles y zonas residenciales.

At Azulev we are in direct contact with the latest developments in architecture, building systems and interior design. As a result, we continue to focus on innovative and reliable solutions such as OUTSIDE20, a product range that offers the right technical performance for outdoor flooring. These are the perfect porcelain tiles for designing outdoor environments. With the 20mm thick anti-slip tiles, it is possible to shape accesses and paths in swimming pool areas, hotels and residential areas.

The In&Out concept is a trend, it is closely linked to contract projects, architecture and the new lifestyle, where different technical characteristics are required for indoors and outdoors, but looking for uniformity and continuity. Azulev has a wide range of finishes: natural and polished interior finishes, non-slip exterior finishes or for wet areas in thicknesses of 10 mm and 20 mm.

At Azulev we are in direct contact with the latest developments in architecture, building systems and interior design. As a result, we continue to focus on innovative and reliable solutions such as OUTSIDE20, a product range that offers the right technical performance for outdoor flooring. These are the perfect porcelain tiles for designing outdoor environments. SPECIAL TILE PIECES

Las baldosas cerámicas completan su oferta para adaptarse y personalizar cualquier lugar a través de las llamadas piezas especiales y complementarias. No sólo tienen una función decorativa -muchas se personalizan dando lugar a piezas únicas-, sino también práctica, y pueden significar la guinda del pastel a la hora de planear nuestros proyectos.

Ceramic tiles complete their offer to adapt and personalise any place through the so-called special and complementary pieces. They not only have a decorative function -many are personalised to create unique pieces- but also a practical function, and can be the icing on the cake when it comes to planning our projects.

NORMAS DE MANTENIMIENTO

MAINTENANCE STANDARDS

Limpieza y mantenimiento

Limpieza final de obra: Después de la colocación es fundamental realizar una buena limpieza con el fin de eliminar residuos de junta y en general suciedad de la obra. Para esta operación recomendamos el empleo de un detergente de acción ligeramente ácida que no despidan humos tóxicos y respete las juntas, el material y el usuario, como FILADETERDEK. En el caso de material colocado con junta epoxi o en base resina, se aconseja realizar la limpieza final de obra con un limpiador específico de residuos epoxidicos, como FILACR10.

Mantenimiento: Para un buen mantenimiento del pavimento se aconseja el empleo de un detergente neutro con alto poder limpiador como FILACLEANER. En los casos de suciedad intensa e incrustada acumulada en el tiempo, se aconseja consultar el esquema a continuación para encontrar el producto Fila ideal para cada situación.

Cleaning and maintenance

Cleaning after laying: We suggest a good initial cleaning after the laying on the floor or wall, this is very important for removing residual grouting and the normal dirt coming from the building works. We suggest the use of our product FILADETERDEK, that is a lightly acid product that doesn't emit fumes that are harmful for the user and that can attacks joints. In case of material layed with epoxy or resinous grouting, we recommend to clean after laying with our specific detergent FILACR10.

Regular maintenance: For a good cleaning of the floor we suggest the use of our product FILACLEANER it's a natural detergent with a high cleaning power. In case of strong dirty and encrusted by the time, we recommend to consult the following scheme to find the perfect solution to every situation.

TIPO DE SUCIEDAD INCRUSTADA / TYPE OF DIRTY	PRODUCTO FILA A UTILIZAR PRODUCT TO USE
Residuos de cemento de colocación, residuos calcáreos, rayas metales, depósitos de óxidos Zement, kalkstein, metal tracer, rust	DETERDEK
Residuos de junta epoxi, vitrificada, resinosa Residuals, stains and halos of epoxi joints Résidus,	FILACR10
Suciedad orgánica ligera (limpieza diaria) Light organic dirt (daily cleaning)	CLEANER PRO
Bebidas, comidas, grasas, aceites, goma, tintes, rotulador, gotas pintura plástica Greasy, drinks, food, tire marks, colours, marker, etc.	FILAPS87
Pintadas de grafitis, spray acrílicos, alquídicos y nitro sintéticos Grafitis	FILAOPAINT
Cera de velas, resinas arboles, residuos cinta adhesiva, alquitrán Wax candel, bitumen, adhesive tape residues	FILASOLV

TYPE OF FIXING

Colocación Tradicional

El sistema de colocación tradicional con adhesivo químico es similar a la instalación de otros pavimentos porcelánicos presentando especial atención al contraencolado y juntas mínimas de dilatación.

- Ventajas:
- Rápida limpieza
 - Apto para alto tránsito y paso de vehículos.

Colocación sobre Arena, Césped y Gravilla

Los sistemas de colocación en seco son muy comunes en el exterior ya que aportan un añadido decorativo donde se instalan.

Para tener una instalación óptima ya sea sobre arena, césped o gravilla necesitamos disponer un lecho de unos 6cm de gravilla con una granulometría de 4 - 8mm

- Ventajas:
- Instalación sin necesidad de obras
 - Rápida colocación y sustitución de piezas
 - Gran variedad de rasgos estéticos

TRADICIONAL | CONVENTIONAL

CÉSPED | GRASS

GRAVILLA | GRAVEL

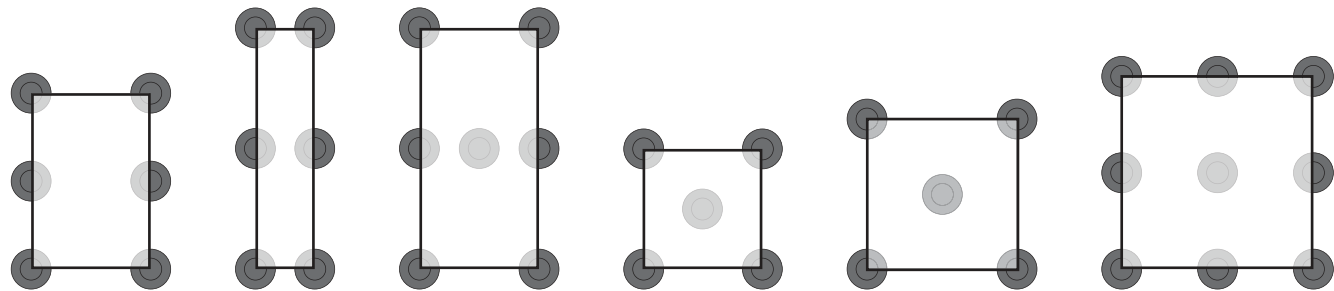

Plots

Los plots son piezas para una colocación de materiales rápida, ecológica y de alto nivel estético. La instalación con plots no requiere de mortero, colas o adhesivos y el espacio es inmediatamente transitable y fácilmente removible. Son ideales para instalar los modelos de la familia OUTSIDE20, el gres ideal para ambientes externos, tanto públicos como privados.

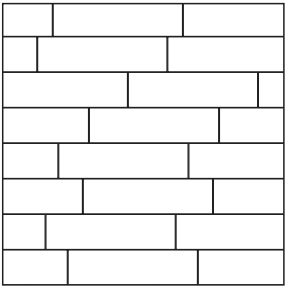

Plots

Plots are parts for fast, ecological and aesthetically installation of materials. Installation with plots does not require mortar, glue or adhesives and the space is immediately walkable and easily removable. They are ideal for installing the models of the OUTSIDE20 family, the ideal porcelain pavers for outdoor environments, both commercial and residential.

AZULEV, S.A.U. reserves the right to add, without prior notice and at any time or for any reason, all the modifications that it considers appropriate.

The colours, details and descriptions contained in this catalogue are indicative. The appearance of the material may vary slightly from that shown in the photographs.

Para la portada de este catálogo se ha utilizado el papel Refit Cotton White.

REFIT es un papel no estucado, ecológico y de gama alta. El tacto y el aspecto especiales del papel se deben al proceso de reciclado, que incluye residuos de los procesos de fabricación del algodón.

Refit incluye un 40% de residuos reciclados postconsumo completados con un 15% de fibras de algodón y utiliza un 100% de energía hidroeléctrica de producción propia. Es 100% reciclable y biodegradable.

Las emisiones generadas por el papel ecológico Refit se compensan totalmente gracias a los Créditos Garban adquiridos por Favini para financiar actividades que puedan absorber CO2 en la atmósfera.

Favini's Refit Cotton White paper was used for the cover of this catalog.

REFIT is a high-end, eco-friendly, uncoated paper. The special touch and look of the paper is due to the up-cycling process, which includes waste product from cotton manufacturing processes.

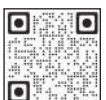

Refit includes 40% post-consumer recycled waste topped up with 15% cotton fibres and uses 100% hydro-electric energy produced in-house. It is 100% recyclable and biodegradable.

The emissions generated by eco-friendly paper Refit are fully offset thanks to Garban Credits acquired by Favini to finance activities that can absorb CO₂ in the atmosphere.
